

Safety Guidelines & Evacuation Procedure

- Frequently wash hands & put on a pair of gloves prior to working with food.
- Always wear gloves when serving and preparing food.
- Ask for help when moving heavy items.
- If you spill something on the floor, take time to clean it up so someone else does not slip and fall.
- Always wear a hair net or hat to prevent your hair from falling in food.
- Always be aware of popping grease while working the grill or fryer station.
- If you get burnt run cold water on the burn, then go to the first aid station and get the burn cream.
- Remember to think before doing something potentially dangerous.

Evacuation Procedure

- If a Tornado or severe storm strikes stay close to the floor.
- If you want to leave we will not stop you, but insist you not go out in the weather.
- Typically if a severe storm is coming everything will be canceled ahead of time, and you will be able to leave, but we will always keep you informed.
- We are ultimately at a wide open park, so we have to always be alert and aware of the threat for severe weather.
